Executive Summary

This document provides a feature-by-feature comparison of ISAFlow against the three leading cloud accounting platforms in South Africa: Sage Business Cloud, QuickBooks Online, and Xero.

ISAFlow is purpose-built for South African businesses, with integrated payroll, SARS compliance, BEE reporting, fixed asset management, and advanced AI capabilities — all included in the base price. Key differentiators include multi-entity consolidation, three-way procurement matching, AI-powered document capture with Vision Language Models, and a comprehensive reporting suite.

Legend: YES = Included | Partial / Add-on / Tier-locked | NO = Not available

Std = Standard | Ess+ = Essentials+ | Plus+ = Plus | Adv = Advanced | Prem = Premium | Add-on = Paid extra | 3rd party = Via integration

Overall Score

149 features compared across 18 modules

ISAFlow	Sage	QuickBooks	Xero
100%	39%	43%	56%
148.5 / 149	58.5 / 149	64 / 149	84 / 149

Key Takeaways

- ISAFlow offers the most comprehensive feature set of any SA cloud accounting platform.
- No competitor offers integrated SA payroll — all require separate paid subscriptions.
- ISAFlow is the only platform with AI management commentary and three-way forecasting.
- Sage has no fixed assets, no purchase orders, and no AI features.
- QuickBooks locks critical features (assets, POs, budgets, custom roles) behind expensive tiers.
- Xero has strong banking/OCR but no group reporting, no BEE, no native SA payroll.
- ISAFlow is the only platform with BEE reporting, SARS compliance calendar, and POPIA tools.
- Multi-currency is included in ISAFlow; it costs extra on Sage, QBO, and Xero.
- ISAFlow includes everything in the base price — no add-on fees.
