Basis of preparation

In short IFRS for SMEs. 1 January 2026 to 7 September 2026. Figures in R'000 (ZAR), draft. Full basis on page 12.

DRAFT

PERFORMANCE

Revenue has no positive comparative base for a percentage change. Operating margin is 1564.3%.

Revenue[1]	Gross margin	Operating profit	Net profit[1]
99	−1348.0%	(1 546)	(1 546)

Cash[1]	Debt-to-equity	Debtor days	Working capital
(532)	*Equity is negative — liabilities exceed assets, so this ratio inverts and cannot be ranked.*	2292 days	(3 822)

Commentary

Revenue No comparative period, so no movement is shown against this figure.

Gross margin No comparative period, so no movement is shown against this figure.

Operating profit No comparative period, so no movement is shown against this figure.

Net profit No comparative period, so no movement is shown against this figure.

Cash No comparative period, so no movement is shown against this figure.

Debt-to-equity Not available. Equity is negative — liabilities exceed assets, so this ratio inverts and cannot be ranked.

Debtor days No comparative period, so no movement is shown against this figure.

Working capital No comparative period, so no movement is shown against this figure.

Reading these tiles

Comparison basis Each movement is measured against the prior calendar period, stated on the tile itself.

Absent comparatives A tile with no movement shown has no comparative period to measure against; it is never shown as a move from zero.

Scale Figures are in R'000 (ZAR). Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.

1. Sparklines run over the pack's monthly trend series. 3 of 8 tiles carry one; the rest have no monthly series behind them and show none rather than a line drawn from a single point.

DRAFT

PERFORMANCE

Net profit of (1 546); the comparative profit base is measured against a negative comparative base, so the percentage change is not meaningful.

Commentary pending approval.

How this page is prepared

Commentary The left column carries the board's own commentary on the period. It prints only once an approver has signed it; until then this page says so rather than printing unapproved text.

Action panel The right column is derived from the same checks the matters page tabulates — aged debtor concentration, unreconciled bank items, unusual journals and overdue statutory filings — ordered by the size of the exposure. It is machine-written and states the decision each matter is waiting on, never a recommendation.

FINANCIALS

Group results | operating loss of (1 546) on revenue of 99.

DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY

No line item shows a meaningful period-on-period movement.

1. Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.
2. The prior column is the period 26 April 2025 to 31 December 2025.

FINANCIALS

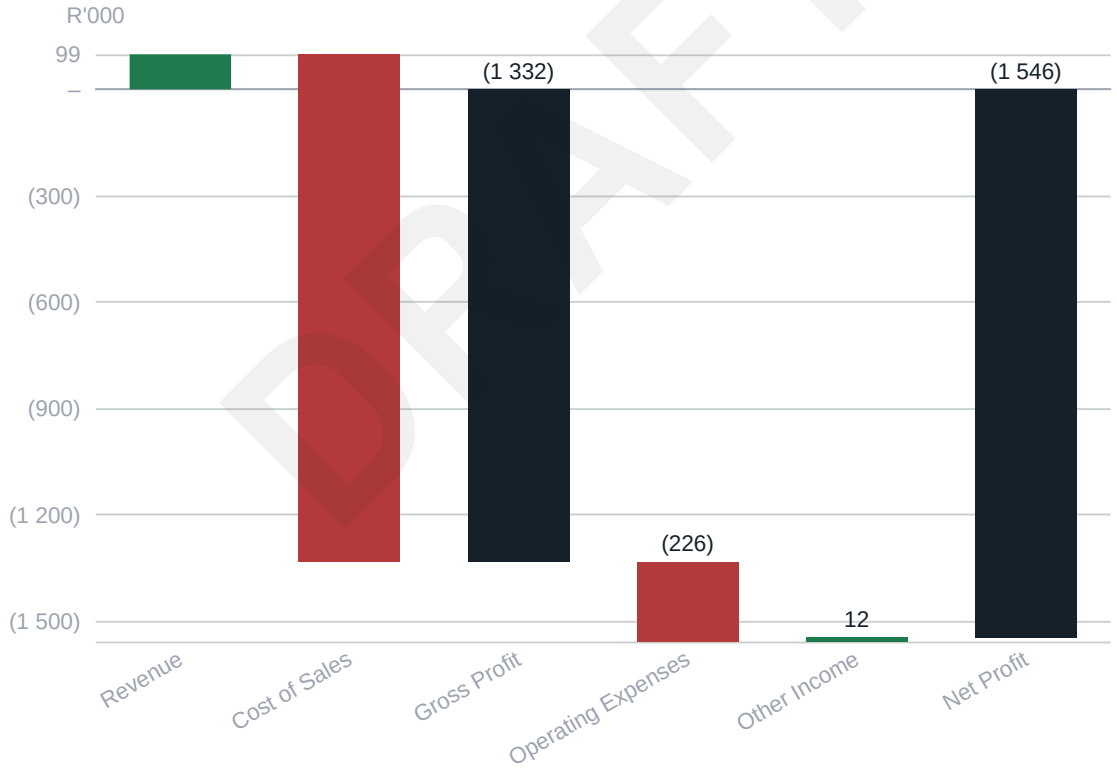

Gross margin of 1348.0% carried operating expenses of 226.

R'000

	ACTUAL	PRIOR	CHANGE	CHANGE %	% OF REVENUE
Revenue	99	–	99	n/m[a]	+100.0%

Net profit	**(1 546)**	**(905)**	**(641)**	**n/m[a]**	**−1564.3%**

a n/m — The prior figure is not a positive base, so a percentage change would not track the direction of the movement.

Revenue of 99 bridges to net profit of (1 546).

DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY

Operating expenses moved the most, up 101.4%.

1. Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.
2. The prior column is the period 26 April 2025 to 31 December 2025.

FINANCIALS

Balance sheet position: negative equity of (4 088).

R'000

	ACTUAL	PRIOR	CHANGE	CHANGE %
Current assets	(467)	(125)	(342)	n/m[a]
Non-current assets	(266)	(137)	(129)	n/m[a]
Total assets	**(733)**	**(262)**	**(471)**	**n/m[a]**

Total equity	**(4 088)**	**(2 543)**	**(1 545)**	**n/m[a]**

a n/m — The prior figure is not a positive base, so a percentage change would not track the direction of the movement.

Assets of (733) stand on liabilities of 3 355 and equity of (4 088).

DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY

Current assets cover current liabilities 13.9%; working capital stands at (3 822).

Negative equity

Consequence Total equity is (4 088). Liabilities exceed assets by this amount, which may affect covenant compliance and the going-concern assessment.

1. Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.
2. The prior column is the period 26 April 2025 to 31 December 2025.

DRAFT

FINANCIALS

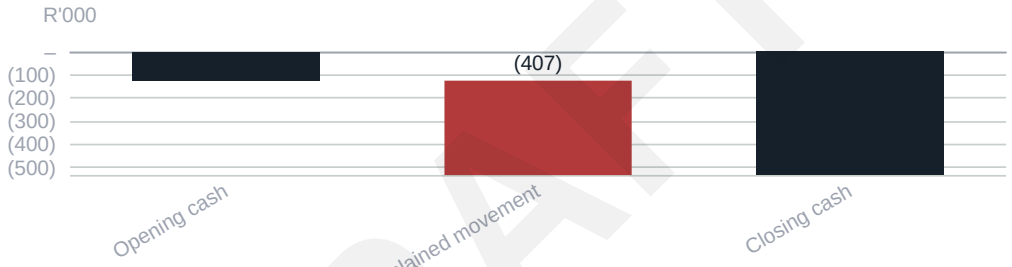

Cash stands at (532); the comparative cash base is measured against a negative comparative base, so the percentage change is not meaningful.

R'000

	ACTUAL	PRIOR	CHANGE	CHANGE %
Opening cash	**(125)**	**–**	**–**	**–**
Operating cash flow	n/m[a]	–	–	–
Investing cash flow	n/m[b]	–	–	–
Financing cash flow	n/m[c]	–	–	–
Closing cash	**(532)**	**(125)**	**(407)**	**n/m[d]**

a n/m — No operating cash flow figure was captured for this period.
b n/m — No capital expenditure figure was captured for this period.
c n/m — No financing cash flow figure was captured for this period.
d n/m — The prior figure is not a positive base, so a percentage change would not track the direction of the movement.

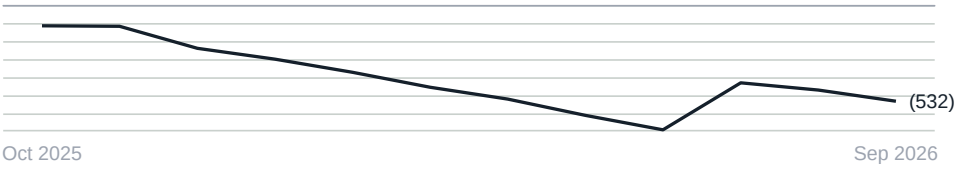

Cash moved from (125) to (532) over the period.

How much of this bridge is unexplained

Size of the unexplained step 'Unexplained movement' accounts for R 407 of this bridge — 100% of what it bridges. That step is the movement the figures do not break out, not a measured category, so read the bridge as the shape of the period rather than a complete account of it.

Closing cash fell from (115) to (532) over 12 periods.

Commentary

This period No operating cash flow figure was captured for this period. 407 of the movement in cash is NOT explained by the operating, investing and financing figures the pack captures; the bridge shows it as an unexplained movement rather than closing the gap silently.

1. Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.
2. The prior column is the period 26 April 2025 to 31 December 2025.

Operating cash flow	n/m[e]	–	n/m[e]	NOT MEANINGFUL
Cash conversion cycle	1496 days	–	-1016 days	UNSCORED

a n/m — Revenue is not positive, so there is no turnover to take a margin of.
b n/m — Revenue is not positive, so days of sales outstanding cannot be measured.
c n/m — Equity is negative — liabilities exceed assets, so this ratio inverts and cannot be ranked.
d n/m — Interest expense is not captured in the pack figure set.
e n/m — No operating cash flow figure was captured for this period.

> DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY
> 0 of 3 scored targets were met this period, with 3 missed.

Scoring basis

Targets Targets are the platform defaults; a metric with no target is shown unscored rather than assumed met.

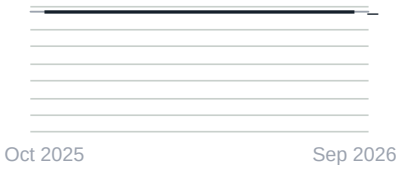

Not meaningful A metric shown as not meaningful states its own reason — an unreportable ratio is never printed as a number.

DRAFT

PERFORMANCE

Revenue has no usable base at the start of the 12-period series; 4 of 6 panels are drawn.

Revenue rose from – to – over 12 periods.

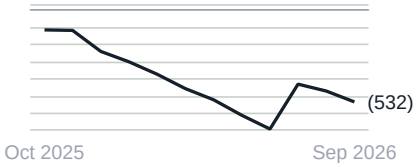

Operating expenses rose from 24 to 35 over 12 periods.

Net profit fell from (120) to (164) over 12 periods.

Cash fell from (115) to (532) over 12 periods.

DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY

4 metrics are tracked over the period; each panel states where it started and where it ended.

Reading these panels

Scale Revenue, operating expenses, net profit and cash share one y-scale, so a metric ten times the size of another cannot be mistaken for moving the same amount. Gross margin % and debtor days are different units, so each keeps its own scale.

Panels not drawn

Why Spec §4.A asks for 6 panels and 4 are drawn. A panel is omitted only when its figure is not meaningful for every period in the window — gross margin % and debtor days both require positive revenue, and no period here had any. Nothing is inferred from the period totals in its place.

18 further matters are not printed on this page: the pack lists the largest by exposure, and every matter with no single rand amount, first. They come to 1 555 in total.

Movement Not tracked — no prior board pack is stored to compare against. — the same for every matter listed above.

Commentary pending approval.

What was checked

Sources Aged debtor concentration, unreconciled bank items, unusual journals and overdue statutory filings. A source that fails appears as a named matter, never as a silent omission.

Movement No prior board pack is stored, so movement since the last meeting is stated as untracked rather than computed from a period comparison, which would answer a different question.
