IFRS FOR SMES

ISAFlow Demo (Pty) Ltd

Board Pack

1 January 2026 to 7 September 2026

DRAFT

Generated 2026-09-07

Confidential — for board use

Preparation Prepared by IsaFlow on 7 September 2026. This pack is a DRAFT — the fiscal period it ends in is still open, so these figures can still move and no commentary on this period has been approved, so nobody has signed off what it says.

Debt-to-equity
Equity is negative — liabilities exceed assets, so this ratio inverts and cannot be ranked.

Debtor days[1]
213 days

Working capital
(3 821)

DRAFT

Commentary

Revenue The prior figure is not a positive base, so no percentage change is meaningful.

Gross margin The comparative period carries no value for this measure, so no movement is shown.

Operating profit The prior figure is not a positive base, so no percentage change is meaningful.

Net profit The prior figure is not a positive base, so no percentage change is meaningful.

Cash The prior figure is not a positive base, so no percentage change is meaningful.

Debt-to-equity Not available. Equity is negative — liabilities exceed assets, so this ratio inverts and cannot be ranked.

Debtor days The comparative period carries no value for this measure, so no movement is shown.

Working capital The prior figure is not a positive base, so no percentage change is meaningful.

Reading these tiles

Comparison basis Each movement is measured against 26 April 2025 to 31 December 2025 — the comparative period the basis page states, and the prior column the statement pages print.

Absent comparatives A tile with no movement says why in its own caption — the comparative period carries no value for that measure, or its prior figure is not a positive base. A movement is never shown as a move from zero.

Scale Figures are in R'000 (ZAR). Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.

1 Each tile's figure covers the WHOLE reporting period; the sparkline beside it runs over the monthly trend series, a different window. 5 of 8 tiles carry one; the rest have no monthly series behind them and show none rather than a line drawn from a single point.

Net profit of (1 544); the comparative net profit figure is negative, so the percentage change is not meaningful.

Commentary pending approval.

For the board

DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY

Annual Financial Statements for FY2024 is 739 days overdue (due 28 August 2024) — Approve immediate filing and confirm any penalty exposure.

Annual Financial Statements for FY2026 is 10 days overdue (due 27 August 2026) — Approve immediate filing and confirm any penalty exposure.

Jul 2026: expenses for the month are a net credit — more was reversed out of expense accounts than was posted into them, so the month reports a profit the period does not. The quantum is that credit; the trends panel plots the month's net profit, which is larger by the month's revenue. Identify the reversals behind the credit and confirm the period they belong to.

4 further matters follow on the matters page.

22 further matters are not printed in this pack; the matters page states what they come to.

How this page is prepared

Commentary The left column carries the board's own commentary on the period. It prints only once an approver has signed it; until then this page says so rather than printing unapproved text.

Action panel The right column is derived from the same checks the matters page tabulates — aged debtor concentration, unreconciled bank items, unusual journals and overdue statutory filings — in the order the matters page prints them: matters with no single rand amount first, then the largest by exposure. It is machine-written and states the decision each matter is waiting on, never a recommendation.

DRAFT

Net profit runs from (784) in Jan 2026 to 1 908 in Jul 2026 across the 12 months.

	R'000				
	REVENUE	COST OF SALES	OPERATING	OTHER	NET PROFIT
Oct 2025	2	86	15	–	(99)
Nov 2025	2	119	17	–	(133)
Dec 2025	2	115	11	–	(124)
Jan 2026	1	774	11	–	(784)
Feb 2026	1	420	12	–	(431)
Mar 2026	1	426	16	–	(442)
Apr 2026	1	437	11	–	(447)
May 2026	1	419	15	–	(433)
Jun 2026	2	445	8	–	(452)
Jul 2026	39	(1 922)	53	–	1 908
Aug 2026	37	431	58	–	(453)
Sep 2026	30	–	41	–	(11)
12 months to Sep 2026	**119**	**1 751**	**269**	**–**	**(1 901)**

Reading this table

The columns Cost of sales, Operating and Other are the three bands every expense of a month falls into: cost of sales, everything else above the operating line, and everything below it — finance costs, tax and other expenses. Revenue less the three of them is the month's net profit, so each row adds across.

The window This table covers 12 months to Sep 2026, which is the series page 10 draws. The reporting period is stated in the footer of every sheet, and the income statement overleaf carries that period's own totals against the comparative.

The reporting period's EBITDA

EBITDA EBITDA for the reporting period is (1 467). The comparative period's is (905). It is operating profit plus the depreciation and amortisation charged in the period, and it is presented because a board asks for it, not because a standard requires it. Every other figure on this sheet is one month's; this one is the reporting period's, which the footer of every sheet states. The basis of preparation reconciles it to operating profit line by line.

> DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY
>
> Jul 2026 carried the most revenue of any month, 39 of the 119 earned over 12 months to Sep 2026 — 32.8% of it.

1 Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.

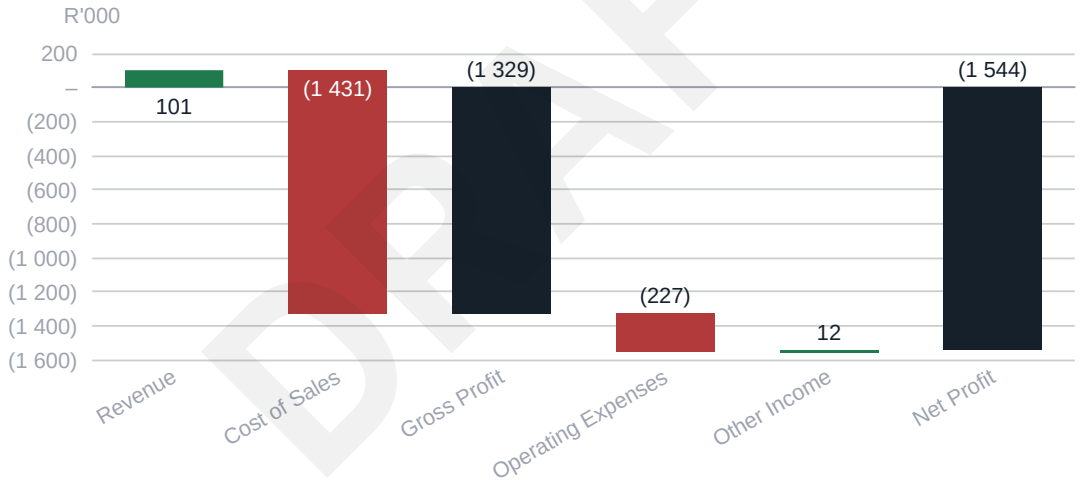

DRAFT

Gross margin is a negative 1310.8%, carrying operating expenses of 227.

	R'000				
	ACTUAL	PRIOR	CHANGE	CHANGE %	% OF REVENUE
Revenue	101	–	101	n/m[a]	+100.0%
Cost of sales	1 431	805	626	+77.8%	+1410.8%
Gross profit	**(1 329)**	**(805)**	**(524)**	**n/m[a]**	**(1310.8%)**
Operating expenses	227	112	115	+102.1%	+223.7%
Other income	12	12	(<1)	(2.9%)	+11.6%
Operating profit	**(1 544)**	**(905)**	**(639)**	**n/m[a]**	**(1522.9%)**
Other expenses	–	–	–	n/m[a]	0.0%
Net profit	**(1 544)**	**(905)**	**(639)**	**n/m[a]**	**(1522.9%)**

a n/m — The prior figure is not a positive base, so no percentage change is meaningful.

Revenue of 101 bridges to net profit of (1 544).

DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY

Operating expenses moved the most, up 102.1%.

1 Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.
2 The prior column is the period 26 April 2025 to 31 December 2025.
3 The table states each line as the ledger carries it. The bridge below POSITIONS each bar by its effect on net profit — up where the line added to it, down where it took away — and COLOURS it by what the line is: green for income, red for cost, in every pack and whichever way the period ran. Cost of Sales of 1 431 in the table is drawn as (1 431) on the bar — the amount by which it reduces profit — and in red, because it is a cost line. The two signs are the same fact read two ways.
4 Gross margin on this page — the income statement page — is the figure for the WHOLE reporting period, measured on the period totals; the trends page plots the same measure one month at a time. Different windows: the two will not agree.

DRAFT

Balance sheet position: negative equity of (4 087).

R'000

	ACTUAL	PRIOR	CHANGE	CHANGE %
Current assets	(464)	(125)	(339)	n/m[a]
Non-current assets	(266)	(137)	(129)	n/m[a]
Total assets	**(730)**	**(262)**	**(468)**	**n/m[a]**
Current liabilities	3 357	2 281	1 076	+47.2%
Non-current liabilities	–	–	–	n/m[a]
Total liabilities	**3 357**	**2 281**	**1 076**	**+47.2%**
Total equity	**(4 087)**	**(2 543)**	**(1 544)**	**n/m[a]**

a n/m — The prior figure is not a positive base, so no percentage change is meaningful.

Assets of (730) stand on liabilities of 3 357 and equity of (4 087).

DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY

Current assets cover current liabilities at negative 13.8%; working capital stands at (3 821).

Negative total assets

What this means Total assets are (730). An asset side below zero is not a position a business can hold; it means one or more asset accounts carry credit balances — commonly a bank account overdrawn beyond its recorded facility, or a control account posted against. The balance sheet still foots, so the pack reports it as the ledger states it; it should be traced to the accounts before this pack is relied on.

Negative equity

Consequence Total equity is (4 087). Liabilities exceed assets by this amount, which may affect covenant compliance and the going-concern assessment.

1 Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.
2 The prior column is the period 26 April 2025 to 31 December 2025.

DRAFT

Cash stands at (531); the comparative cash figure is negative, so the percentage change is not meaningful.

R'000

	ACTUAL	PRIOR	CHANGE	CHANGE %
Opening cash	**(125)**	**n/m**[a]	**n/m**[a]	**n/m**[a]
Operating cash flow	n/m[b]	n/m[b]	n/m[b]	n/m[b]
Investing cash flow	n/m[c]	n/m[c]	n/m[c]	n/m[c]
Financing cash flow	n/m[d]	n/m[d]	n/m[d]	n/m[d]
Closing cash	**(531)**	**(125)**	**(406)**	**n/m**[e]

a n/m — The period before the comparative period is not in this pack, so there is no earlier opening cash balance to measure this one against.
b n/m — No operating cash flow figure was captured for this period.
c n/m — No capital expenditure figure was captured for this period.
d n/m — No financing cash flow figure was captured for this period.
e n/m — The prior figure is not a positive base, so no percentage change is meaningful.

Movement in cash, and why no bridge is drawn

This period Cash moved (125) to (531) over the period, a movement of (406). No bridge is drawn because there is nothing to bridge THROUGH: this pack's figure set carries the period's cash totals and none of the operating, investing or financing figures a cash flow statement is made of, so every step between the two balances would be one unmeasured step the width of the whole movement. Ask for the cash flow statement for the split.

Closing cash fell from (115) at Oct 2025 to (531) at Sep 2026, over 12 periods.

Commentary

This period No operating cash flow figure was captured for this period.

1 Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.
2 The prior column is the period 26 April 2025 to 31 December 2025.
3 Opening cash in the table above is the balance at the START of the reporting period. The closing-cash line below it plots 12 months to the period end and opens at Oct 2025, so it starts from the balance at that month instead. Different windows: the two will not agree.

DRAFT

0 of 3 scored targets were met this period.

A. Profitability

METRIC	ACTUAL	TARGET	PRIOR	STATUS
Gross margin	(1310.8%)	+35.0%	n/m[a]	MISSED
Operating margin	(1522.9%)	–	n/m[a]	UNSCORED

B. Liquidity

METRIC	ACTUAL	TARGET	PRIOR	STATUS
Current ratio	(0.14)	1.50	(0.05)	MISSED
Cash ratio	(0.16)	–	(0.05)	UNSCORED

C. Working capital

METRIC	ACTUAL	TARGET	PRIOR	STATUS
Debtor days	213 days	30 days	n/m[b]	MISSED
Creditor days	789 days	–	1 035 days	UNSCORED

D. Leverage

METRIC	ACTUAL	TARGET	PRIOR	STATUS
Debt-to-equity	n/m[c]	0.50	n/m[c]	NOT MEANINGFUL
Interest cover	n/m[d]	–	n/m[d]	NOT MEANINGFUL

E. Cash flow

METRIC	ACTUAL	TARGET	PRIOR	STATUS
Operating cash flow	n/m[e]	–	n/m[e]	NOT MEANINGFUL
Cash conversion cycle	n/m[f]	–	n/m[f]	NOT MEANINGFUL

a n/m — In the comparative period: revenue is not positive, so there is no turnover to take a margin of.
b n/m — In the comparative period: revenue is not positive, so days of sales outstanding cannot be measured.
c n/m — Equity is negative — liabilities exceed assets, so this ratio inverts and cannot be ranked.
d n/m — Interest expense is not captured in the pack figure set.
e n/m — No operating cash flow figure was captured for this period.
f n/m — No inventory could be identified in the chart of accounts, so the cash conversion cycle cannot be computed.

> DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY
>
> 0 of 3 scored targets were met this period, with 3 missed.

Scoring basis

Definitions Each metric is scored against the platform's default target. The basis page defines the terms and every formula used here.

1 Debtor days on this page — the scorecard page — is the figure for the WHOLE reporting period, measured on the period totals; the trends page plots the same measure one month at a time. Different windows: the two will not agree.

DRAFT

Revenue is up 1413.5% from the first month of the 12-month series to the last; 6 of 6 panels are drawn.

Revenue rose from 2 to 30 over 12 periods. Own scale: its range is 1.1% of the shared one, too little to show on it.

Gross margin rose from (4267.6%) to 100.0% over 12 periods. Own scale: a percentage, not R'000.

Operating expenses rose from 15 to 41 over 12 periods. Own scale: its range is 1.6% of the shared one, too little to show on it.

Net profit rose from (99) to (11) over 12 periods. Jul 2026 alone is 1 908 — a month whose expenses were a net credit; drop it and the range becomes (1 621) to 58, 52.4% narrower.

Cash fell from (115) to (531) over 12 periods.

Debtor days rose from 0.0 days to 59.6 days over 12 periods. Own scale: a day count, not R'000.

DRAFT

DERIVED FROM THE FIGURES — NOT REVIEWED COMMENTARY

6 metrics are tracked over the period; each panel states where it started and where it ended. The shared y-scale spans (1 621) to 1 908, a span of 3 529 R'000; a panel's percentage of it is that panel's own high-to-low range over that span.

Reading these panels

Scale Net profit and Cash share one y-scale, so neither of them can look like it moved more than it did. Every panel labels the low and high of its own axis, so a share of the range can be checked off the sheet. Revenue (1.1%) and Operating expenses (1.6%) are drawn on their OWN scales — each has too little of its own range to register on the shared one, and says so in its own title. Their slopes are not comparable with the panels above. Gross margin and Debtor days are different units and keep their own.

Period Each panel plots one MONTH at a time. The same measures print for the WHOLE reporting period — revenue, gross margin and operating expenses on the income statement page, net profit on the group results page, cash on the cash page and debtor days on the scorecard page — against the comparative period. Different windows: the two will not agree.

29 matters require a board decision, 27 of them carrying 3 544 R'000 of exposure.

ISSUE	QUANTUM (R'000)	OWNER	DECISION REQUIRED
Annual Financial Statements for FY2024 is 739 days overdue (due 28 August 2024)	n/m	Company secretary	Approve immediate filing and confirm any penalty exposure.
Annual Financial Statements for FY2026 is 10 days overdue (due 27 August 2026)	n/m	Company secretary	Approve immediate filing and confirm any penalty exposure.
Jul 2026: expenses for the month are a net credit — more was reversed out of expense accounts than was posted into them, so the month reports a profit the period does not. The quantum is that credit; the trends panel plots the month's net profit, which is larger by the month's revenue.	1 869	Finance	Identify the reversals behind the credit and confirm the period they belong to.
Journal JE-2026-00073 (recorded well after its entry date): Payroll run 2026-01	339	Finance	Confirm supporting evidence for this entry or refer it for reversal.
Journal JE-2026-00075 (recorded well after its entry date): Payroll run 2026-03	339	Finance	Confirm supporting evidence for this entry or refer it for reversal.
Journal JE-2026-00074 (recorded well after its entry date): Payroll run 2026-02	339	Finance	Confirm supporting evidence for this entry or refer it for reversal.
Journal JE-2026-00085 (recorded well after its entry date): Payroll run 2026-01	339	Finance	Confirm supporting evidence for this entry or refer it for reversal.

22 further matters are not printed. A board pack is the same twelve sheets for every company however busy its ledger, so this table is held to the paper this page has: matters with no single rand amount are listed first, then the largest by exposure. They come to 319 R'000 in total.

Movement Not tracked — no prior board pack is stored to compare against. The same for every matter listed above.

Commentary pending approval.

What was checked

Sources Aged debtor concentration, unreconciled bank items, unusual journals and overdue statutory filings. A source that fails appears as a named matter, never as a silent omission.

Movement No prior board pack is stored, so movement since the last meeting is stated as untracked rather than computed from a period comparison, which would answer a different question.

DRAFT

Prepared under IFRS for SMEs from the IsaFlow general ledger, in R'000; 2 caveats qualify these figures.

Basis of preparation

Standard IFRS for SMEs
Period 1 January 2026 to 7 September 2026
Comparative period 26 April 2025 to 31 December 2025
Currency and rounding ZAR, figures in R'000.
Source system IsaFlow general ledger

Rounding Figures are rounded to the nearest R'000, so components may not add exactly to the totals shown.
Extracted at 7 September 2026 at 19:11 SAST
Ledger version 7 September 2026 at 17:45 SAST

Negative figures
In brackets — (12 345) — for currency, percentages and ratios alike. No minus sign is used anywhere in this pack.

Not meaningful (n/m)
A measure the figures cannot support. The pack prints the reason rather than a number, and never a zero — which would say the measure was taken and found to be nothing. A dash (–) is that zero: a figure measured and nil, never a figure the pack does not have.

Gross margin
Gross profit (revenue less cost of sales), as a percentage of revenue.

Operating margin
Operating profit as a percentage of revenue.

Net profit margin
Net profit, as a percentage of revenue.

EBITDA
Earnings before interest, tax, depreciation and amortisation — a non-IFRS measure, taken from operating profit (already stated before interest and tax) plus the depreciation and amortisation charged in the period. The bridge below is the whole of it; there are no other adjustments.

Operating profit (IFRS)	(1 544)
Add back: depreciation and amortisation	77
EBITDA	(1 467)

Working capital
Current assets less current liabilities, in rand.

Current ratio
Current assets divided by current liabilities.

Cash ratio
Cash and cash equivalents divided by current liabilities.

Debt-to-equity
Total liabilities divided by total equity. Not reported on negative equity: the quotient inverts.

Interest cover
Operating profit divided by net interest expense. This pack captures no interest expense line, so it is reported as not meaningful.

Debtor days
Trade receivables over revenue, times 365 — an annualised figure on the scorecard and highlights, whatever the length of the reporting period. The trends page instead multiplies each month's ratio by the days in that month, so the two do not agree.

Creditor days
Trade payables over cost of sales, times 365 — annualised, whatever the length of the reporting period. Not reported where there is no cost of sales.

Cash conversion cycle
Debtor days plus inventory days, less creditor days — each annualised on 365 days, as above. Not reported where no account is classified as inventory.

Operating cash flow
Cash generated by operations before investing and financing activities.

Scored, unscored and not meaningful
Scored against the platform's default target. A metric with no target is unscored rather than assumed met; one the figures cannot support is not meaningful. Neither counts as a pass or a miss.

Caveats

Caveat 1 No inventory could be identified in the chart of accounts, so the cash conversion cycle cannot be computed. No acid-test ratio is published; liquidity is read off the current ratio alone.

Caveat 2 This pack is a DRAFT — the fiscal period it ends in is still open, so these figures can still move and no commentary on this period has been approved, so nobody has signed off what it says.

DRAFT
